Bisma Eight, the foremost boutique hotel experience in the natural and cultural heart of Ubud, Bali has done it yet again. An exquisitely curated experience that captures the true essence of Bali, and takes your typical tour package to a whole new level.

Walk anywhere along the central strip of Ubud's main town and you can guarantee two things. First, the offer of a taxi ride, seated on the back of many a moped that will happily take you to absolutely anywhere your fancy would desire! Secondly, a plethora of tour operators chancing their sales game and promising to deliver you the best sightseeing the island has to offer. Some of which are pretty good and if you wish to see what everyone has seen, then jump right in and take your pick; but none will create the lasting memories, and introduce you to the real Bali quite like the experience tours designed by Bisma Eight.

Leading the way is the "The Bedugul We Love" aptly titled as executive, chauffeur driven and expertly tour guided vehicles from the Bisma Eight fleet, take you on a journey to the North of Bali and begin with the breathtaking Twin Lakes at Bedugul caldera. Complete with your very own on the road butler.

Arrive as the sun is at it's most pleasant, creeping out from the back of the lush rainforest-covered hills, to shed light on the majestic Lake Buyan and Lake Tamblingan below. Don't worry, you'll be there before the tourists, giving you unrivalled views and endless photo opportunities that will make you the Instagram envy of the world.

As the heat of the day raises the thermometer, you will welcome a chance to cool off in the presence of the captivating waterfalls between Bedugul and Sigaraja. The refreshing streams that meander through the stone steps and wooden boardwalks, offer a tranquil backdrop to the Gitgit waterfalls that often split into two equal streams as they cascade 40 meters down to the rocky pool below. The adventurous choose to take a dip, whilst others simply admire the view. Either way, it's an experience that won't be forgotten quickly.

Bisma Eight have thought of everything with this experience. Your driver and butler even know the best place to enjoy the mouthwatering picnic provided by Bisma Eight's very own Copper Kitchen. How does a backdrop of Tropical Mountain Forest, Cacti, Orchids and Ferns sound? Amazing right? The Bali Botanic Gardens play host to lunch, and as a place for research and conservation, education and recreation, you have the chance to feel totally connected with the essence of Bali whilst you dine.

There is a chance to shop for local handicrafts, souvenirs and exotic spices as the tour continues to the traditional markets of Bedugul. The highland garden of Bali is a melting pot of fresh, local produce and there is even a traditional art section too.

To wrap things up Bisma Eight have really pulled out all the stops with a visit to the Baturiti Luwak Coffee plantation. A handpicked insider at the plantation, takes you on a voyage of Coffee discovery from growth to process, that culminates in the final produce. A cup or two of the highly valued Luwak Coffee, paired with tasty treats prepared by the Bisma Eight team, all with an awe inspiring view of the farmland vistas that grace this most beautiful part of the island.

This isn't just your average, run of the mill tour. It's an infinitely well curated experience that speaks to the very heart of what Bali looks like, feels like and tastes like. Its immersive and tailored to awaken all of your senses, and leaves you with stories to tell that you most likely won't have heard before.

The Bedugul We Love by Bisma Eight is available to book directly with the hotel now, for both staying guests and the general public.
